QUADPACK

Unfailing applicators combination for every need

The best for the eyes, lips and face

Elegant Applicator

One size: **QPS003F**

Product Description

The Elegant applicator features an innovative doe-foot shape made by its wider tip that creates a great reservoir to collect more formula. Flawless when combined with face formulas such as concealers, it precisely deposits the formula on the desired area and spots, while the body of the applicator simplifies the application. Surprisingly soft, the Elegant will bring the application of any pigmented formula to the next level.

Key aspects

Firm and precise with a wide central reservoir on the tip. Its elegant doe-foot shape makes it perfect for formulas requiring rigidity and precision in application.

Way of application

Use the tip to deposit the formula on the undereye area or on the cupid's bow to accurately draw the sides of the lips; turn the applicator to spread the formula elegantly.

Formula combination

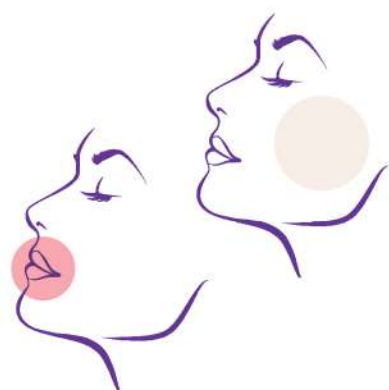

- Concealers
- Medium to High coverage formulas requiring rigidity and control in application

The Smooth

One size: **QPS016L**

Product Description

The Smooth, a small spatula-like applicator, offers a soft and delicate yet precise application experience. With enhanced rigidity for better control, it guarantees precise and accurate application while maintaining a gentle touch. Its curved edge effortlessly follows the natural contours of the lips or under-eye area, ensuring a smooth and even distribution of the formula for a flawless finish. Perfect for various formulas, the Smooth, as its name suggests, provides a smooth and uniform application every time.

Key aspects

Spatula-like applicator, rigid and precise yet soft and pleasant. Very versatile for all-in-one formulas.

Way of application

Achieve precise application by using the tip to define and the sides to apply the desired amount of formula. The rigid body guarantees precision, while the side reservoirs store and evenly distribute the formula for optimal results.
